2. Scope of Work (from public filings)

The task order provides support for the ICE ERO 287(g) National Coordination Center (NCC). Per federal procurement summaries, the scope includes:

- Automated Case Review & Management — Developing and maintaining electronic systems for automated review, processing, and prioritization of actionable enforcement cases.
- Immigration Bond & Fee Applications — Designing and maintaining software tools for immigration bond management and fee tracking.
- 24/7 Call Center Operations — Continuous operational support via a call center assisting 287(g) LEA partners, state/local agencies, and ICE officers nationwide. Projected volume: 6,000–7,000 inquiries daily.
- Programmatic & Operational Support — Assisting with inter-agency agreements, compliance monitoring, reporting, data analysis, and program execution under INA § 287(g).
- Emerging Technologies — Identifying and deploying new technologies for process efficiency.

Note: The full Performance Work Statement (PWS) was distributed via the GSA eBuy / OASIS+ portal to pre-qualified contract holders only — it is not publicly posted on SAM.gov. A FOIA request is the appropriate channel to obtain the complete PWS (see Section 11).

3. Procurement History & Protest Record

Event	Date	Detail
Solicitation issued	~Early 2026	70CDCR26R00000009 via GSA OASIS+ SB
GAO Bid Protest filed	Early 2026	AcmeSolv, LLC (Docket: B-424266.1) challenged the solicitation
Protest dismissed	March 3, 2026	GAO dismissed; ICE proceeded with evaluation
Contract awarded	August 6, 2026	Koniag Services, Inc. selected as prime
Place of performance updated	~August 20, 2026	Changed from Adams, TN → Nashville, TN 37214 in federal databases

4. About Koniag Services, Inc.

- Parent entity: Koniag, Inc. — an Alaska Native regional corporation (ANCSA) headquartered in Kodiak, Alaska.
- Operating subsidiary: Koniag Government Services (KGS), which holds multiple federal contracts across DHS, DoD, and civilian agencies.
- Small business status: Qualifies as an 8(a) small disadvantaged business and Alaska Native Corporation-owned firm, eligible for sole-source and set-aside federal procurements.
- Public response: When contacted by journalists, Koniag representatives stated they were “not at liberty to discuss details of the federal contract.”

5. Published News Coverage

Tennessee Lookout (Primary investigative coverage)
Reporter: Anita Wadhwani | Date: Mid-August 2026Key findings from published reporting:

- Adams, TN mystery: Federal databases initially listed the place of performance as Adams, Tennessee — a town of ~600 people in Robertson County. Local officials (including the city manager) and state lawmakers (Sen. Kerry Roberts) told the Lookout they were "completely in the dark" and questioned the town's capacity for a major federal operation.
- Nashville pivot: Following press inquiries, procurement records were updated to reflect Nashville, TN (ZIP 37214 / Donelson area) as the actual place of performance.
- Job posting surge: Reporting documented ~29 Nashville-area positions suddenly appearing on Koniag's Dayforce portal and job aggregators, including call center operators (day/swing/night shifts), shift supervisors, operations managers, and analyst roles — all requiring or preferring federal security clearances.
- Shift structure: Postings specified 4-on/4-off, 10-hour shift rotations consistent with 24/7 operations.

Additional Coverage

Outlet	Focus
Tennessee Bar Association / The 901 Report	Contract update, Metro Nashville leadership reactions
Wrangell Sentinel (Alaska)	Koniag corporate angle, Alaska Native Corporation context
HigherGov / OrangeSlices	Federal market intelligence contract breakdown

Local Political Context

- Nashville Mayor Freddie O'Connell's administration indicated city leaders were "blindsided" and were working to get a "consistent depiction of what is planned."
- Placement comes amid tension between Tennessee state legislation (mandating all county sheriffs enter 287(g) MOAs) and Nashville Metro officials who have resisted voluntary entanglement with federal immigration enforcement.
- ICE declined operational specifics, citing operational security and officer safety.

6. The 287(g) Program — Background

What It Is
Section 287(g) of the Immigration and Nationality Act (8 U.S.C. § 1357(g)) authorizes DHS/ICE to enter voluntary Memoranda of Agreement (MOAs) with state and local law enforcement, delegating specific immigration enforcement functions to trained local officers.Current Operational Models

Model	Description
Jail Enforcement Model (JEM)	Officers in local jails interrogate booked individuals on immigration status, run federal database checks, issue detainers (I-247A), and prepare charging documents
Warrant Service Officer (WSO)	Streamlined model — officers serve ICE administrative arrest warrants (I-200/I-205) on individuals already in local custody

Public Oversight Mechanisms

- Published MOAs: ICE posts signed agreements at ice.gov/identify-and-arrest/287g
- Steering Committees: MOAs require periodic review meetings (per Directive ERO 11152.01) with performance metrics and community engagement
- Complaint procedures: Misconduct complaints investigated by LEA internal affairs, ICE Office of Professional Responsibility (OPR), and DHS Office for Civil Rights & Civil Liberties (CRCL)
- External audits: DHS OIG and GAO conduct independent reviews
- State sunshine laws: Participating LEAs' records are subject to state public records acts

Standard MOA Structure

Signed MOAs typically include 12+ articles covering: purpose, statutory authority, anti-profiling policy, authorized functions, officer selection/training, ICE supervision, cost allocation, steering committee governance, complaint/discipline procedures, FTCA liability coverage, and termination clauses (30–90 day notice).

7. FOIA Guidance

To obtain the full PWS/SOW and other non-public contract documents, a FOIA request to ICE is the appropriate mechanism.Where to File

- ICE FOIA portal: ice.gov/foia
- DHS FOIA: dhs.gov/foia

What to Request

A well-scoped request might include:

- The complete Performance Work Statement (PWS) or Statement of Work (SOW) for Solicitation 70CDCR26R00000009 / Award 70CDCR26FR0000034
- All contract modifications and amendments
- Quality Assurance Surveillance Plan (QASP)
- Any Task Order Proposal Request (TOPR) documents
- Award decision documentation (redacted as necessary)

Likely Exemptions ICE Will Invoke

Exemption	What It Covers
Exemption 4 (Proprietary)	Contractor labor rates, profit margins, proprietary staffing models

Exemption 3 (Statutory — 41 U.S.C. § 4702)	Contractor proposals unless incorporated into the contract
Exemption 7(E) (Law Enforcement Techniques)	Operational security parameters, IT security configs, enforcement procedures
Exemption 6 / 7(C) (Privacy)	PII of contractor and law enforcement personnel
Exemption 5 (Deliberative Process)	Pre-decisional procurement documents, evaluation scoring

Tip: Request the PWS/SOW specifically — these are the documents most likely to be released with limited redactions, as they describe what the government is buying rather than how the contractor proposed to deliver it. Contractor proposals (Exemption 3) are much harder to obtain.Fee Waiver
News media, educational institutions, and nonprofit organizations conducting public-interest research can request a fee waiver under 5 U.S.C. § 552(a)(4)(A)(iii) by demonstrating the information will contribute to public understanding of government operations.
